Nurseries Located on the Depot Road 1-2 South Pennsylvania Depot
OHIO STATE PHONE 317-3

Salem : : Ohio

INTRODUCTION.

We are glad to have you give your attention to our Catalogue for a few minutes, believing that you will find it full of profitable information and interesting, whether you have made up your mind to plant any new stock this year or not.

The conditions of the world's markets are far more favorable for the fruit grower than ever before, and whether you plant for your own use or for sale of the product there is every reason why you should not delay any longer. When compared

to the value of other farm products Nursery Stock is exceedingly cheap and must in the near future be equalized so that the purchasers this year are being offered bargain prices all along the line.

We are always glad to consult with prospective customers and give them what assistance we can in all their planting problems, whether fruit or the beautifying of the home, based upon practical knowledge of what others have found to be most satisfactory under similar circumstances. If you cannot drop into our nursery and talk it over with us, we will see that your problems are given the best attention.

We feel confident that all things considered, we can supply your wants better than anyone else, because of our knowledge of local problems you have to meet, and we trust you will consult us before placing your order elsewhere.

This knowledge of local conditions and results in this part of Ohio is one of the strongest claims we have for your patronage. You can send your orders to the four corners of the earth, but you will nowhere receive the service based upon exact knowledge that we can give you, the freedom from loss of the stock on the road and the lack of vitality because it has been long dug and often handled.

In the Nursery trade there has grown up a standard of ethics which is observed by all reputable nurserymen, and you are respectfully referred to these terms and conditions when placing your orders:

THE SHIPPING SEASON generally begins from the first to the middle of April and about the 15th of October in the autumn. The season is not regulated, however, by any definite date, nor by the state of vegetation at the locality of the planter, but by the condition of the trees when received. Parties south of us may receive our trees some weeks after their season has opened, yet when planted they will give entire satisfaction.

EARLY ORDERS—To one familiar with the rush at the packing season, it must be obvious that it is impossible to fill an order requiring much time in its preparation on short notice without doing an injustice to others who have their orders previously booked. In fairness to all, we have adopted the practice of filling orders in the rotation received, unless orders are received far enough ahead of the packing season, with instructions to ship at a given date, so that we can arrange a special shipping date. So we again say—place your orders as far in advance of shipping as you possibly can, stating when you would like stock sent.

PACKING FREE—We have arranged to pack all orders free of charge and deliver same to transportation company at which time our responsibility ceases. All claims for damage because of delay in transit must be presented to the railroad companies.

TERMS—Cash to come with order, it can be sent by registered letter, Postoffice Money Order, Express Money Order or Bank Draft.

OUR GUARANTEE—We exercise care to have our stock genuine and reliable, and hereby guarantee that if all, substantially all or any part of stock delivered, does not prove true to name as ordered, we will replace it free of charge, or refund the money paid for it, that being the measure of damages for a breach of the contract.

CERTIFICATE OF NURSERY INSPECTION FURNISHED WITH ALL SHIPMENTS

APPLES

	Each	10	100
2 yr. 4½ to 6 ft. ----	\$0.30	\$2.50	\$25.00
2 yr. 3 to 4 ft. -----	.20	1.80	18.00
1 yr. whips, 3 ft. ----	.20	1.80	18.00

Summer Varieties

- ✓ **Cook Sweet**—Very large, bright yellow, sweet, a good bearer.
- ✓ **Red Astrachan**—Large and a great bearer; deep crimson; rather sour but fine for cooking.
- ✓ **Sweet Bough**—Fine size and very sweet; is a good bearer; pale yellow; ripens in August.
- ✓ **Stickle Sweet**—Flesh tender and good; good bearer; fine for apple butter.
- ✓ **Yellow Transparent**—The earliest apple; pale lemon color. Bears very young, quality good, skin very smooth.

Fall Varieties

- ✓ **Common Rambo**—Medium size; the very best quality, good bearer, fine for eating, streaked with red on sunny side.
- ✓ **Duchess**—Very hardy; a great bearer, good size, flesh tender and juicy; skin streaked with red and yellow.
- ✓ **Fall Pippin**—Very large; skin yellow, good quality; valuable for cooking and market.
- ✓ **Gravenstein**—Large size, yellow with red stripes, flat in shape, flesh tender, crisp and highly flavored.

Hyslop Crab

- ✓ **Hendrick Sweet**—Fruit of good size, bright red, good for baking, dessert or apple butter, tree a good bearer; fruit will keep till the holidays.
- ✓ **Hyslop Crab**—A large Crab Apple, crimson, fruit produced in clusters; a good bearer, used for cider and jelly.
- ✓ **Maiden Blush**—Large, flat, pale yellow with a red cheek; very beautiful, a good bearer.
- ✓ **Ohio Nonpareil**—Of largest size and the top notch in quality; brings highest market price on account of its beautiful red color, very hardy and valuable.
- ✓ **Red Beitingsheimer**—Very large, pale green covered with purplish-crimson stripes, hardy, a good grower and abundant bearer.
- ✓ **Smokehouse**—Tree hardy and a good bearer, flesh tender and spicy and cooks well; very desirable.

Winter Varieties

- ✓ **Banana**—Good bearer; fruit perfect in form, skin golden yellow, good keeper, flesh tender and aromatic, good for dessert but not for cooking. May.
- ✓ **Baldwin**—The old standard. When planted in good rich soil and is properly pruned and sprayed, it has no superior for profit. Fine both for eating and cooking, fruit large, bright red, crisp and

Red Beitingsheimer

Baldwin

juicy. If in doubt what to plant, select Baldwin. May.

✓ **Ben Davis**—A great bearer, tree extremely hardy, quality fair, good keeper. This apple has not many friends but it is a money maker on account of its fine color. May.

✓ **Black Ben Davis**—Very large; extremely dark red, better in quality than the Ben Davis and a decided improvement. May.

✓ **Bentley**—Medium size; a great bearer, will keep the year round in good condition. Color light red, flesh rather sweet but will cook.

✓ **Blue Rambo**—Very large and great bearer, light blue cast over red stripes, keep till March.

✓ **Delicious**—Said to do well in the West but has not proven valuable here. Fruit medium size, light red in color, flesh fine grained, juicy, with a delightful aroma. April.

✓ **Fameuse or Snow**—Fine for dessert, of medium size, striped red; flesh snowy white, delightful flavor. February.

✓ **Gate**—Color yellow with oily skin; quality most excellent, a good bearer but tree is rather short lived.

✓ **Golden Russet**—Medium size; round, clear, gold russet with slight blush; very hardy, flesh tender, crisp and juicy. April.

✓ **Grimes Golden**—Medium to large size; beautiful golden color, highest quality, great bearer. March.

✓ **Jonathan**—Fair size and most beautiful appearance, pale yellow, heavily flushed with red. Profitable for a market

sort; very productive, flesh rich and juicy. Keeps till March.

✓ **King**—Fruit very large, fine shape and color. Flesh crisp and tender of good quality, very attractive.

✓ **Mark Sweet**—Medium size, dark red, very sweet, good bearer and a good winter sweet apple. April.

✓ **McIntosh**—Medium size; very dark red, making fine appearance, one of the most beautiful apples; good quality. February.

✓ **Mammoth Black Twig**—Very dark red and showy; tree hardy and a good bearer. Much like the old Winesap. April.

✓ **Northern Spy**—This apple has no superior for beauty and quality; a little late in beginning to bear, but is productive after it starts. Very large, striped red next to sun, profitable. June.

✓ **Red Gillflower (Spitzenberg)**—Valuable for market; a good bearer, fruit rather flat, striped red and good quality. June.

✓ **Rhode Island Greening**—A popular market sort from its large size and fine quality; beautiful yellow when ripe, very productive. April.

✓ **Rome Beauty**—Now being largely planted as a leading market apple; large size, quality excellent, heavy and sure bearer, bright red all over, all combined make it a winner. March.

✓ **Stark**—A heavy, sure bearer; fruit large, golden green with red stripes on sunny side; flesh yellow, mild sub-acid. May.

✓ **Stayman Winesap**—A large red apple of the best quality; bears young, is very productive; tree hardy, seems a strong competitor of the Northern Spy. May.

Grimes Golden

✓ **Talman Sweet**—Very sweet, medium size, color pale yellow, tree vigorous and productive. May.

✓ **Wagner**—Of large size and good quality; succeeds well everywhere, color deep red, said to be the most beautiful apple in existence; tree hardy and productive. May.

✓ **Wolf River**—Very large, yellow with highly colored red cheeks; flesh white, spicy flavor; tree hardy and productive. February.

✓ **Wealthy**—Fruit large, roundish and deep red, an early winter sort, valuable

for its fine appearance and good quality. Very hardy; tree productive. January.

✓ **York Imperial**—Very productive and hardy fruit, fine size, smooth skin, yellow flushed with red giving it an attractive appearance; good quality, tree bears young. March.

Dwarf Apples

These trees are budded on Doucine stock and grow to 8 or 10 feet in height, bearing very young and fruit of finest appearance. We have the following varieties 3 to 4 feet at 40c each: ✓ **Red Astrachan**, ✓ **Banana**, ✓ **Wealthy**, ✓ **Baldwin**, ✓ **Rome Beauty**, ✓ **Transparent**, ✓ **Delicious**, ✓ **Wagner** and ✓ **Spy**.

1 yr. 4 to 6 feet -----	.20	1.80	15.00
1 yr. 2½ to 4 feet -----	.15	1.25	10.00

Yellow Varieties

✓ **Admiral Dewey**—A large, yellow peach; good bearer, very early and good. July.

✓ **Crosby**—Medium size; flesh yellow and fine quality; heavy bearer, very hardy. September.

✓ **Elberta**—Without question this is the leading commercial peach; very large, handsome, bright yellow; flesh juicy and so firm that it stands shipping well; hardy and productive. September 15.

✓ **Fitzgerald**—Fruit is large, bright yellow, good quality, hardy, bears young. September 1.

✓ **Early Crawford**—Much like Late Crawford in size and color; very good quality; ripens about September 1.

✓ **Golden Drop**—Bright golden; very hardy, good bearer, best quality. September 15.

Crosby Peach

Hale—Said to be larger and better quality than Elberta. It has been tested in many localities and found valuable. Beautiful yellow in color and a great bearer; ripens Sept. 1 to 5.

Lemon Free—Very hardy; a heavy bearer, the highest quality; lemon shape and color, best peach for home use. Late September.

Late Crawford—Largest size; fine appearance; bears well; valuable market variety. Late September.

Lemon Cling—Very large; sweet, used for spicing; productive. September.

Mathew's Beauty—Very large; ripening just after Elberta; golden yellow, flesh firm and good; ships well. Late September.

Niagara—A New York variety, ripening just after Elberta; has been well tested and found valuable; good quality, large size; productive. Late September.

Kalamazoo—Large, golden yellow; small seed, good quality, productive. September.

Salway—Our latest peach; very large, creamy yellow with red cheek; flesh deep, rich and sweet, productive. Oct.

Smock—A fine, large variety valuable as market sort, very productive, flesh rich and juicy, fine for canning. Late September.

Sweet October—Very large, extremely late; most excellent quality and good bearer.

Stearns—A new variety from Michigan; yellow flesh, bright red skin; very large, good quality and productive. September.

White Varieties

Belle of Georgia—Very large; skin white with beautiful red cheek; productive. July.

Carman—A n immense cropper; very beautiful red cheek; large, white with

Hale Peach

skin very tough, flesh juicy of the best quality; tree hardy, a good market sort. Early August.

✓ **Champion**—Of the finest appearance; fruit very large and delicious; comes in after Carman; productive; valuable. August 20.

✓ **Heath Cling**—Large; creamy white, very sweet; valuable for spicing. October.

✓ **Mixon**—Large; great bearer; extremely hardy, flesh tender and juicy. September.

✓ **Mt. Rose**—One of the best early freestones; medium size, flesh rich and delightful, hardy. Productive. August.

✓ **Stump**—A most beautiful peach; large, red and white skin; flesh rich and juicy, good cropper; tree hardy. Late September.

✓ **Troth's Early**—Medium size; ripens early and almost freestone; very sweet, productive. August 1.

Carman Peaches

Delicious Pears

Bartlett Pear

Prices of Pears

	Each	10	100
2 yr. 4½ to 6 ft. ----	\$0.30	\$2.50	\$25.00
2 yr., 3 to 4 ft. -----	.25	2.00	18.00
1 yr. whips, 3 to 4 ft. .25		2.00	18.00

✓ **Bartlett**—Large; bright yellow with red blush; juicy and highly flavored; productive. September.

✓ **B. D. Anjou**—Large; greenish color, very hardy and productive; juicy, rich vinous. October.

✓ **Bell**—An old variety, very early, fine color, good bearer; tree hardy, fair quality.

✓ **Clairgeau**—Extremely large size; tree bears young; skin yellow shaded with crimson, flesh juicy and excellent. Ripe in September.

✓ **Clapp's Favorite**—Very large; long shaped; beautiful blush next to sun; of good quality; should be picked green and allowed to ripen in a cool place. August.

✓ **Duchess**—The largest pear; greenish yellow and good quality; succeeds better when grown as a dwarf. October.

✓ **Flemish Beauty**—Very sweet; productive and hardy; large and fine. September.

✓ **Kieffer**—An immense cropper and very hardy, fine color when ripened properly; a great market variety. October to January.

✓ **Lawrence**—Medium size; bright golden yellow, productive and hardy; will keep all winter.

✓ **Sheldon**—Russet color; quite large; round and most excellent flavor, hardy and productive. September.

✓ **Seckel**—A little pear of the best quality; great bearer and hardy, best eating pear. September.

✓ **Wilder**—Medium size; but a good bearer, and excellent flavor, good grower, fine color, early.

Dwarf Pears

✓ **Bartlett**

✓ **Duchess**

✓ **Clapp's Favorite**

✓ **Flemish Beauty**

3 to 4 ft. 30c each

Dwarf pear trees can be planted where there is not much room, as they make only a small, round top and come into bearing at once, generally the second year after planting.

Duchess Pear

Profitable Plums

Prices of Plums

✓ **Alexander**—Light orange in color, flesh juicy and good flavor, medium size and a good bearer.

Cherries For Market

Montmorency

Prices of Cherries

	Each	10	100
2 yr. 4 to 6 ft. -----	\$0.30	\$2.50	\$25.00
2 yr. 3 to 4 ft. -----	.25	2.00	18.00
1 yr. whips 3 to 4 ft. -----	.25	2.00	18.00

Sweet Varieties

✓ **Allen**—Very large, black, meaty and firm, ripens late and is free from rot.

✓ **Bing**—Is well recommended as a cherry of large size, delicious flavor; color is almost black, very solid meat, ripens late.

✓ **Gov. Wood**—A most prolific bearer, fruit is large, round, color yellow mottled with red, very hardy and profitable.

✓ **Lambert**—Extremely large, turning jet black when ripe, tree a good grower, hardy and productive.

✓ **Napoleon (Royal Ann)**—Fruit large, very solid, pale yellow when ripe. Late.

✓ **Schmidt**—Fruits in large clusters, color jet black, large size, sweet and juicy. July. Hardy and productive.

✓ **Sidney**—Originated from a chance seedling in this county, is a beautiful red, very large size and abundant bearer. The only red sweet cherry that is really valuable that we know of. The original tree has produced 14 bu. of fine cherries in one season, does not rot easily, ripens last of June.

✓ **Tartarian**—An old variety that is still popular; cherries of the largest size, black in color, ripens late.

✓ **Windsor**—Fruit large, liver colored, flesh firm and good quality, tree hardy and productive.

✓ **Yellow Spanish**—Large, pale yellow, flesh solid, sweet and juicy, tree vigorous and productive. June.

Sour Varieties

✓ **Baldwin**—Fruit large, dark red and excellent quality, not as sour as other of the Morello type. Ripens early and tree is a very good bearer.

✓ **Dyehouse**—The earliest cherry, is a great bearer; the color is bright scarlet, very small seed, excellent for canning.

✓ **Early Richmond**—The standard for productiveness and hardiness, fruit is dark red, very large, best for pie cherry, tree very hardy and productive.

✓ **May Duke**—Large, dark red, juicy and very rich pulp, tree a great bearer, ripens early.

✓ **Montmorency**—Very large, bright red, ripens late, when other cherries are scarce; hardy and profitable.

✓ **Reine Hortense**—Very large, color bright red, mild flavor, tree good grower and productive. Late.

✓ **Wragg**—Resembles English Morello, but said to be hardier in bud, flesh very firm; ripens late.

Sidney Cherries

Black Champion—Is very productive; large bunch.

Cherry—Berries very large; requires good soil; red.

Fay's Prolific—Bunches large; very productive; red.

White Grape—The best white currant. Mild Flavor.

Wilder—Bright red with large bunches, a good grower and producer.

Goosberries

Strong plants, 15c each; \$1.50 per dozen

Champion—Very large; fine quality; red.

Columbus—Large, good grower, red when ripe.

Downing—Pale green; sweet, fair size.

Pearl—Medium, greenish, very sweet, productive.

Red Jacket—Large, free from mildew, productive.

Smith's Improved—Pale yellow, large, great bearer.

Downing Gooseberries

Deciduous Shade Trees

American Elm—Grows to 100 feet tall; has a wide, open top, excellent for avenues where it succeeds well. 8 to 10 feet, \$1.00 each.

American Linden—A stately tree, growing to 60 feet high; valuable both as an ornamental and for its wood, makes a fine appearance. 8 to 10 feet, \$1 each.

Bechtel's Double Flowering Crab—A small, bushy tree, valuable for its flowers produced in great abundance and very fragrant. 4 to 5 feet, 75c each.

Norway Maple—Forms a compact, round head, of a fairly rapid growth; to 40 feet high; valuable for lawn or park. 8 to 10 feet, \$1.00 each; 10 to 12 feet, \$1.25 each.

Silver Maple—The most rapid growing of all shade trees; foliage bright green and grows to a large size; very hardy. 8 to 10 feet, 75c each; 10 to 12 feet, \$1.00 each.

Sugar Maple—A good grower; excellent for street and shade; of upright and dense growth, turning bright yellow in autumn. 8 to 10 feet, \$1.00 each; 10 to 12 feet, \$1.25 each.

Schwedleri Maple—Valuable for its beautiful foliage, the leaves being a gleaming red in the spring, later turning purple and in the fall to golden yellow. 6 to 8 feet, \$1.50 each.

Weir's Cut Leaf Maple—Delicately cut leaves and long, half drooping branches cause an unique appearance; a rapid grower, becoming very large and spreading. 6 to 8 feet, 50c each.

Oriental Plane—A graceful, wide-spreading tree, grows rapidly to 80 feet tall; large, leathery leaves, turning yellow in the fall. 8 to 10 feet, 75c each; 10 to 12 feet, \$1.00 each.

Catalpa Speciosa—Makes a rapid growth; large leaves, grows to a large size, being planted for posts. 6 to 8 feet, 25c each.

Purple Beech—A medium size tree, excellent for lawn decoration. Leaves are very showy, deep purple in the spring, changing to dark green in the fall. 3 to 4 feet, \$1.00 each.

Horse Chestnut (Buckeye Tree)—A handsome tree for lawn or street planting, produces long spikes of white flowers; very hardy and a good grower. 6 to 8 feet, \$1.00 each.

Pin Oak—Leaves are deep green and glossy, turning to gold in the fall, growing faster than other oaks and makes a beautiful tree. 6 to 8 feet, \$1.25 each.

Schwedleri Maple

Prunus Pissardi—Purple leaved plum, distinct little tree and very showy, covered with leaves that deepen in color to the end of the year. 4 to 5 feet, 50c each.

Flowering Dogwood (Cornus Florida)—A small but handsome tree, with its white flowers produced early in the spring, followed by bright red berries in the fall; the foliage is glossy green and in the fall turns to a deep red. 4 to 5 feet, 75c each.

Weeping Varieties

Camperdown Elm—Long, drooping branches; grows to 30 feet high; forms a broad, handsome head. 2-year heads, \$1.25 each.

Cut Leaved Weeping Birch—A most graceful tree of rapid growth, reaching 60 feet; bark white, branches slender and drooping. 6 to 8 feet, \$1.00 each; 8 to 10 feet, \$1.50 each.

Catalpa Bungei—Not a weeping tree but is grafted on stems 5 to 8 feet from the ground, forming an umbrella shaped top, very ornamental and hardy. 2-year heads, \$1.00 each.

Tea's Weeping Mulberry—Grafted on a straight stem five to six feet from the ground, the branches droop down, form-

ing a tent-like bower of beautiful green leaves, very hardy and ornamental. \$1.50 each.

Weeping Mountain Ash—Has long,

slender branches; grows 15 to 20 feet high, has white flowers in May, followed by clusters of bright red berries. 2-year heads, \$1.25 each.

Choice Evergreens

For a good windbreak, or to hide some unsightly spot, nothing can equal our hardy evergreens. By massing a number of kinds on the lawn, or even using a single specimen, a most ornamental effect is produced and these deservedly popular trees are coming into favor again. We have a choice selection of the best varieties.

SPRUCE

Englemanni—Will grow to a large size, but can be pruned to almost any shape desired; foliage light blue. $1\frac{1}{2}$ feet, \$2 each.

Koster's Blue (*Pungens Kosteriana*)—Most beautiful dwarf spruce, grows very compact and always makes a fine show. 2 feet, \$2.00 each.

Norway (*Excelsa*)—A tall growing tree of imposing appearance, but is one of the best evergreens for a hedge if kept pruned. 2 to 4 feet, 50c each.

ARBORVITAE

American Arborvitae (*Occidentalis*)—An erect grower but can be trimmed to any desired effect, foliage light green. 2 feet, 50c each.

George Peabody (*Lutea*)—A dwarf growing beautiful golden leaved Arborvitae, showy and fine. 2 feet, \$1.50 each.

Globosa—Grows a round head naturally, has a dense light green foliage and is of the arborvitae type. 2 feet, \$1 each.

Hovey's Golden—A small growing arborvitae, foliage light green with golden tinge and very compact. 2 feet, \$1.00 each.

Retinispora (*Squarrosa*)—The foliage is a light blue, soft and beautifully arranged. $1\frac{1}{2}$ feet, \$1.50 each.

Retinispora (*Plumosa*)—Makes a neat round head with feathery light green foliage; makes a nice show as a single specimen. $1\frac{1}{2}$ feet, \$1.50 each.

Retinispora (*Pisifera Aurea*)—This evergreen is fine for massing as it has a bright golden foliage that holds its color. $1\frac{1}{2}$ feet, \$1.50 each.

Koster's Blue Spruce

Irish Juniper—Makes an upright growth like a column, foliage deep green and very compact; makes a nice effect in a cemetery. 2 feet, \$1.00 each.

Mugho (*Dwarf Pine*)—Very distinct, foliage light green, does not grow tall, but spreads out assuming a globular form; stays close to the ground. $1\frac{1}{2}$ to 2 feet, \$1.50 each.

Ponderosa (*Bull Pine*)—Grows very rapidly, on this account is good for windbreaks; will grow to 100 feet. 2 feet, 50c each.

Ornamental Flowering Shrubs

Strong Stock, 30c each

Althea (*Rose of Sharon*)—In double balls in August, which later turn pink red, double white, double blue and variegated; a hardy shrub, blooms late in the fall; very profuse and handsome.

Hydrangea (*P. G.*)—Very hardy and produces profuse masses of huge white

and remain till winter.
Flowering Currant—Profuse masses of yellow flowers, very early in the spring; fragrant.

Snowballs—A short, bushy shrub that produces pure white flowers in great profusion, which have the appearance of snowballs in shape. We have the common and Japan snowballs, both white.

Japan Quince—Blossoms very early in the spring; this shrub is covered with scarlet flowers and later by small quince-shaped fruits which are very fragrant.

Lilac—Produces large amount of beautiful and very fragrant flowers, generally in bloom on Decoration Day; comes in purple or white.

Mock Orange—Bears large numbers of white flowers; delightfully fragrant; resembles orange bloom.

Golden Syringa—Small shrub of striking beauty, the foliage is golden yellow and remains bright throughout the season. When set with other shrubs the contrast is very pleasing.

Deutzia—A hardy ornamental shrub producing thick wreaths of bloom close to the branches early in the spring. We have the Pride of Rochester, and the Lemoinei, the two best varieties, both white flowers.

Weigelia (Eva Rathke)—It is a profuse bloomer; dark crimson, distinct and fine.

Weigelia (Variegated Leaf)—Leaves bordered with yellow, very distinct and showy.

Calycanthus (Sweet Shrub)—Produces fragrant flowers of chocolate red; the old-fashioned shrub.

Flowering Almond—A beautiful pink flower, very double, which usually shows before the leaves appear in the spring. Shrub grows 3 to 4 feet high.

Butterfly Bush (Buddleia)—A quick, bushy grower, producing sweet scented flowers in long spikes, color nearly purple.

Forsythia Viridissima (Golden Bell)—Produces yellow flowers very early in the spring. It has erect branches with bright green bark which is attractive.

Kerria Japonica (Jap Rose)—It has bright green leaves and produces dark yellow flowers in June and continues throughout the summer; grows 4 to 5 feet high.

Bush Honey-suckle—Very showy; the fragrant flowers are followed by clusters of bright red berries in the fall. We have them in pink, red and white.

Golden Elder—Grows to 15 feet if not pruned. Its beauty is

leaves, which are very distinct and showy; flowers are white.

Hydrangea (Hills of Snow)—Grows into a round bush with large white flowers resembling snowballs in shape. Does not grow as tall as Hydrangea P. G., and makes a neater appearance.

Spirea (Anthony Waterer)—A dwarf growing shrub which has profuse quantities of bright crimson flowers in July and August.

Spirea (Van Houttei)—Produces a mass of pure white flowers in June; very showy and one of the finest shrubs. Makes a fine effect as a hedge or as a background for display.

Spirea (Golden)—A shrub with double white flowers, the foliage being a bright yellow in the spring changing to golden brown in the fall.

Choice Selection of Roses

2 year, No. 1, 30c each

EVERBLOOMING DWARF ROSES

Jessie—Blossoms from June till frost; color crimson; foliage bright green and free from mildew.
